HAMPTON ONLINE ACADEMY

Community Service Project

All students are required to complete ten (10) hours of community service and a written review of that service each school year. The required community service may be completed either during the school year or during the summer vacation immediately preceding the school year. The community service requirement is the responsibility of the student and is completed as part of core social studies courses.

It is the responsibility of the student to complete and turn in community service to the Hampton Online Academy Facilitator by the end of the third nine weeks. If it is not turned in by this time, the student will receive an incomplete on his/her report card for the third nine weeks. If the community service is not turned in by the end of the school year, the student's report card will reflect an incomplete for the fourth nine weeks as well. Students are not able to register for the next social studies course in the sequence with an incomplete on their report card.

Students do not have to serve any organization with which they are not comfortable. Prior to beginning the service project, students should discuss it with the HOA Facilitator to be sure it qualifies as a community service. Service that is part of regular membership responsibilities in a church do not qualify for community service (acolyte, server, choir); however, service trips to build homes, for example, may be considered community service. Work done for family members, with "for-profit" organizations, and without pay at the student's place of employment DOES NOT qualify as service to the community. Two hours of community service will be granted for a student who donates blood during school-sponsored blood drives or after school at the local blood bank. Instructions for the written requirement appear below.

Many of you have already given hundreds of hours to the service of others and the community. You are to be congratulated for your dedication and selflessness. The Hampton area is a better place because of you.

When your ten hours have been served, please complete the form on the reverse and have your parent or guardian and your project director sign it. In addition, a report of the ten hours of service must be completed as described below.

.....

COMMUNITY SERVICE REPORT

At the conclusion of your community service project, we want you to share your experience with other students. How the information is reported is up to you. It may be in the form of a paper, a PowerPoint presentation, a movie, or any other approved presentation tool. The report should share narrative information about the activities that were involved in your community service. Another component should be persuasive in nature and explain why other students should take on the same project. Spelling and grammar should be correct before turning it in. All reports will be turned in to the HOA Community Service wikispace. Another copy of the form and instructions are there as well.

Other Hampton Online Academy students will view your presentations.

HOA Community Service wikispace: <http://hoacommunityservice.wikispaces.com/>

You have already been invited to the wikispace. Be sure to accept your invitation and visit it for forms, ideas and where to turn in your final project!
